Japanese Utility Model Publication No. D14-21890

Title : PIMPLE REMOVER

Publication Date : December 12, 1925

Publication Number : D14-21890

Filing Date : March 20, 1925

Application Number : D14-6062

What is claimed is:

1. A pimple remover comprising:

a thin steel wire (1) bended in U-shape, including an angled leading portion (a) formed by bending the wire in 60 degrees upwardly and two-leg portion (b) in which one leg is running parallel to the other leg;

a thin metallic tube (2) with a leading portion (2") being evenly pressed and slightly bended upwardly; and

wherein both ends of the steel wire are inserted and fixed into the leading portion (2').
